

National Health Service in Scotland
Management Executive

St. Andrew's House
Edinburgh EH1 3DG

18 July 1995

Dear Colleague

NHS IN SCOTLAND
1993/94 ANNUAL ENERGY REPORT

Summary

1. The 1993/94 NHS in Scotland Annual Energy Report shows a continuing overall improvement in energy consumption with a year on year saving of 1.7% which equates well with the 1.5-2% national target.
2. Chief Executives and others with responsibility for energy efficiency and the patient environment may wish to review their energy policies and procedures in the light of this information.

Action

3. I am grateful to Trusts which have already completed and returned the enclosed Estates Energy and Environment Information Form for 1994/95 and ask those who have yet to respond to do so as soon as possible. The data will be processed by the Estates Environment Forum Support Unit which will provide the Management Executive with the details of the 1994/95 performance by December 1995.
4. Outstanding Forms should be forwarded to Ms S Noble, NHS in Scotland Management Executive, Room 372, St Andrew's House, Edinburgh EH1 3DG, Tel: 0131 244 3562; Fax: 0131 244 2323.

Other Information

5. The 1993/94 Annual Energy Report is the fourth in the series and demonstrates that good work is being carried out in reducing energy consumption in the NHS in Scotland but that there is significant variation in performance.
6. Two copies of the report are enclosed for your information.
