Dear Colleague

SCOTTISH DRUG TARIFF: PART 1 - ZERO DISCOUNT ITEMS

Purpose

1. To inform NHS Boards and community pharmacy contractors of a revised list of those items known as zero discount items and which will not be subject to discount clawback in accordance with Paragraph 17 of Part 1 of the Drug Tariff for dispensings with effect from 1 November 2006.
2. The Scottish Pharmaceutical General Council has been consulted on these revised arrangements

Background

3. Paragraph 17 of Part 1 of the Drug Tariff lists those items which are exempt from the discount clawback arrangements for drugs, appliances and other items.
4. A review of the appropriateness of the current list of items has now been conducted. The objective of the review has been to rationalise the list such that it facilitates the target aggregate rate of reimbursement against community pharmacists' purchasing and related costs incurred in the NHS dispensing of drugs and other items.
5. The discount clawback scale detailed at Part 13 of the Drug Tariff is being reviewed in parallel. A new target clawback rate is currently being calculated to ensure that the effect of the changes announced in this Circular are overall neutral for community pharmacists whilst compensating for current under delivery against the present clawback target. A new target discount recovery rate and associated clawback scale and date of effect will be promulgated by Circular in due course.

14 December 2006

Detail

6. A revised list of the items which will be considered, for the purpose of Paragraph 17 of Part 1 of the Drug Tariff, as zero discount items with effect from 1 November 2006 dispensings onwards is detailed in the **Annex** to this Circular. All other drugs and items will be subject to discount clawback arrangements in accordance with the provisions of the Drug Tariff.

Action

7. **The Drug Tariff is hereby amended with effect from 1 November 2006 to give effect to the terms of this Circular.**
8. **NHS Boards should copy this circular to all community pharmacy contractors on their pharmaceutical list, to dispensing doctor practices and to all Community Health Partnerships.**

Yours sincerely
