Notes on Amounts payable

1. The determination of the salary payable in respect of each placement within a training programme is normally determined, regardless of the date the placement under the contract actually commences, by the date the contract was entered into and the grade of the doctor at the time that contract was entered into. With those details the allowance payable can be found in the following table by first identifying the column relating to the date the contract for the GP Specialty Registrar placement was entered into and then ascertaining the salary payable, under that column, in respect of the grade of the doctor at the time the contract was entered into. The appropriate point on that grade is the point the doctor is on, or would have been on if he had remained in that grade, at the time the placement under the contract actually commences.
2. However, in all cases, if the salary so determined is less than the salary calculated on the basis of the practitioner's current training grade (and their point on that training grade) and supplement payable at the time the placement under the contract actually commences, then the higher amount is payable.
3. For doctors entering the GPR programme from a training grade the following points, which reflect the phasing out of certain of these grades, must be noted in establishing the doctor's grades for the purpose of paragraphs 1 and 2 above:
 - The salary for a practitioner in a placement contracted for before 1 August 2007 while the practitioner was in the Senior House Officer or Specialist Registrar grade will be determined as if the practitioner had continued in that grade, regardless of any intervening service in the Specialty Registrar Grade. These allowances are shown in parts (a) and (b) below.
 - The salary for a placement contracted for on or after 1 August 2007 will be based on the presumption that the doctor was in the Specialty Registrar (StR) grade at the time the contract was entered into and will be paid in accordance with the section of part (c) relating to the date the contract was entered into, irrespective of whether the practitioner was already in the (StR) grade at the time the contract was entered into. However, if the previous post held by the doctor was a Specialist Registrar (SpR) and the doctor is, at the time the placement actually commences, on the minimum or first incremental point of that scale, then the salary will be determined with reference to part (b) of the table.
4. Practitioners entering from non-training grades are provided for separately in part (d).

Notes

*Incremental dates as in the last hospital post, except where the incremental date has been amended on transfer to the Specialty Registrar grade.

+Doctors on the first incremental point (01) of the Specialist Registrar scale will on reaching their incremental date move to the second incremental point (02) of the Specialty Registrar scale.

*++Guidance (PM(81)30 on the accreditation of previous experience in General Practice equates such experience to the Registrar grade. For the sake of clarity it should be noted that the maximum of the Registrar scale is equivalent to 5th Year Specialist/Specialty Registrar (scale point 04).
