Subject: Pharmacies in Fort William

This email has been received from an external party and has been swept for the presence of computer viruses.

This would allow the like of Safeway's to open a pharmacy at their super store and the result would most likely be the closure of one or maybe two further chemist shops in the Fort William High Street which already has a large number of empty shops. I would not support this idea for rural areas such as the Highlands.

PLEASE NOTE: THE ABOVE MESSAGE WAS RECEIVED FROM THE INTERNET.

On entering the GSI, this email was scanned for viruses by the Government Secure Intranet (GSI) virus scanning service supplied exclusively by Cable & Wireless in partnership with MessageLabs.

GSI users see <http://www.gsi.gov.uk/main/new2002notices.htm> for further details. In case of problems, please call your organisational IT helpdesk.
